

# **Architectural Accent Lighting For Hardscapes**

While patio furniture, statuary, a barbeque and a fire pit combine to create a sanctuary for outdoor living, **Evening Star Paver Lighting** adds subtle, unobtrusive illumination to enhance the enjoyment, visual appeal and safety of outdoor living spaces — *extending daytime lifestyles into twilight and beyond*.

A mere 2 ½ inches in diameter, the small footprint and understated, round design embody both function and flair. Instead of taking the place of a paver like other brands, **Evening Star Paver Lighting** installs directly into the paver flush with the surface — adding stylish, low voltage, accent and security lighting to patios, pool decks, entranceways, walkways, steps and driveways.

**Universal Size...** Fits All Standard  $2^{3}/8''$  (60 mm) and  $2^{3}/4''$  (70 mm) Thick Concrete Pavers.

## **Durable Polycarbonate Construction...**

Withstands Vehicular And Pedestrian Traffic.

**Economical Light Source...** Uses A Low Voltage, 4-Watt, Long-Lasting Incandescent Lamp Module.

Maintenance-Free... Lamp Modules Are Totally Sealed, Weed And Corrosion Proof.

**No Re-Lamping Necessary...** Unique Cam-Lock<sup>TM</sup> Allows Quick Replacement Of Lamp Module.

**Choice Of Ten Standard Lens Colors...** Mix and match for demarcation, delineation or accenting aspects of your landscape design.
