

## — STAINLESS STEEL — LOW VOLTAGE LIGHTING TRANSFORMERS

75W — 150W — 300W  
5-YR. WARRANTY

Evening Star® Stainless Steel Transformers are offered in 3 different wattages with Multi-Tap voltage options for optimum quality, versatility and performance in a wide range of hardscape lighting applications.

### Our Many High-Quality Features And Benefits Include:

- **MULTI-TAPS:**  
12V AND 15V (75W)  
12V, 13V, 14V AND 15V (150W/300W)
- **TIMERS:**  
BUILT-IN MECHANICAL (75W)  
OPTIONAL DIGITAL (150W/300W)
- RESIN-SEALED TOROIDAL CORE
- PHOTOCELL COMPATIBLE
- BUILT-IN TIMER RECEPTACLE ALLOWS FOR OPTIONAL WI-FI AND BLUETOOTH CONTROL
- BUILT-IN ON-OFF SWITCH
- SECONDARY CIRCUIT BREAKER
- REMOVABLE BOTTOM
- FIVE ½-INCH, FIVE ¾-INCH, AND ONE 1 ¾-INCH KNOCKOUTS
- BUILT-IN HANG TABS WITH HARDWARE INCLUDED
- 6-FOOT LONG, 3-PRONG GROUNDED POWER CORD
- THERMALLY PROTECTED
- UL 1838 COMPLIANT
- ETL LISTED

TRANSFORMER**

**BUILT-IN  
MECHANICAL TIMER!**

**12 & 15 VOLT TAPS  
FOR SHORT AND LONG  
CABLE RUNS!**

**OPTIONAL  
PHOTOCELL CONTROL!**

# A COMPLETE LINE OF TRANSFORMERS FOR LOW VOLTAGE LANDSCAPE LIGHTING

CHOOSE THE WATTAGE AND PERFORMANCE THAT'S BEST FOR YOUR PROJECT !

## 75 WATT TRANSFORMER

WITH 12 & 15 VOLT TAPS

This compact transformer has a thermally protected, resin-sealed toroidal core, two voltage taps, and includes a built-in mechanical timer: manual on-off switch; secondary circuit breaker; five 1/2-inch, five 3/4-inch and one 1 3/4-inch knockouts; removable door and bottom; and a 6-foot long, 3-prong grounded power cord. Built-in hang tabs with included hardware facilitate installation.

Optional photocell automatically controls dusk to dawn on-off function.

UL 1838 Compliant, ETL Listed. Dimensions: 6.75" L x 4.5" W x 4.5" H. Weight: 7 lbs.

## 150 WATT TRANSFORMER

WITH 12,13,14 & 15 VOLT TAPS

This larger transformer features a thermally protected, resin-sealed toroidal core, four voltage taps, and a built-in, 3-prong receptacle for an optional timer; manual on-off switch; secondary circuit breaker; five 1/2-inch, five 3/4-inch and one 1 3/4-inch knockouts; removable door and bottom; and a 6-foot long, 3-prong grounded power cord. Built-in hang tabs with included hardware facilitate installation.

Optional photocell automatically controls dusk to dawn on-off function.

UL 1838 Compliant, ETL Listed. Dimensions: 11.75" L x 6" W x 5.5" H. Weight: 14 lbs.

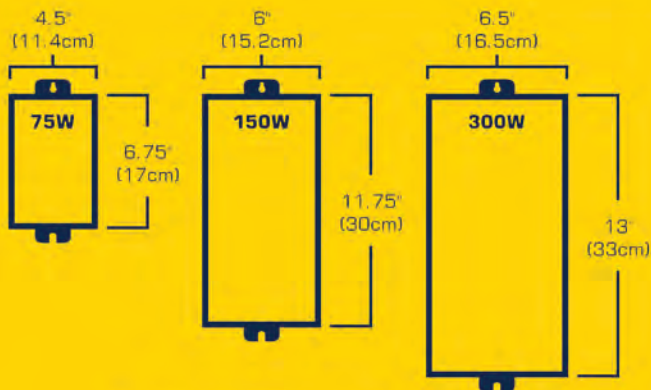

## 300 WATT TRANSFORMER

WITH 12,13,14 & 15 VOLT TAPS

Our largest transformer features a thermally protected, resin-sealed toroidal core, four voltage taps, and a built-in, 3-prong receptacle for an optional timer; manual on-off switch; secondary circuit breaker; five 1/2-inch, five 3/4-inch and one 1 3/4-inch knockouts; removable door and bottom; and a 6-foot long, 3-prong grounded power cord. Built-in hang tabs with included hardware facilitate installation.

Optional photocell automatically controls dusk to dawn on-off function.

UL 1838 Compliant, ETL Listed. Dimensions: 13" L x 6.5" W x 6.25" H. Weight: 17 lbs.

## DIGITAL TIMER ACCESSORY

The Evening Star® Digital Timer allows for full automatic operation of the 150 and 300 watt transformers. The timer simply plugs into the built-in receptacle on the inside panel, and the transformer's internal power cord plugs into the timer. Settings can be customized for a full week, individual days, only weekdays or only weekends. The LCD display shows time, mode and settings. Battery back-up. For dry location use only.

Dimensions: 3" L x 3" W x 2.75" H. Weight: 5 oz.

## PHOTOCELL ACCESSORY

The Evening Star® Photocell automatically turns lights on at dusk and off at dawn. The photocell screws directly into the side knockout on 75, 150 and 300 watt transformers and can be swiveled up or down for precise aiming. The photocell simply plugs into the built-in socket on the inside panel. The photocell comes with a pre-installed silicone cap that must be removed prior to use and can be re-installed as a bypass or to manually turn on the transformer.

Dimensions: 3.85" L x 2.5" W x 1.7" H. Weight: 3 oz.
